

2024-2025

Year End Auditors Report

1. Non-executive Auditor 2024-2025

My name is Dr Tatiana Cocerva, and I have volunteered to audit the Society of Brownfield Risk Assessment (SoBRA) accounts for the period 1st October 2024 - 30th September 2025. Currently, I work as an Environmental Consultant at WSP UK Ltd. As part of my role, I manage purchase orders, review and process invoices, and regularly scrutinise project financial records and accounts spreadsheets to ensure consistency and accuracy.

2. Documents submitted for audit

The following documents have been submitted by SoBRA's Treasurer, Rachel Dewhurst, for scrutiny in 2025:

- Combined SoBRA income and balance sheet and PayPal balance sheets in Excel format (October 2024 - September 2025);
- Payment records (scanned documents) for the period October 2024 - September 2025; and
- Bank statements for the period October 2024 - September 2025 (scanned documents - Lloyds Bank Account No. 13943560).

3. Audit process

The audit has been carried out through the reconciliation of account spreadsheets with bank statements, invoices and other documentation as outlined above.

4. Audit findings

The income and balance spreadsheet presents current account entries and PayPal activity in an easy-to-audit format. Documents scrutinised correlate with the balance sheets submitted for audit. The manner in which documents have been produced and managed would appear to be in accordance with the Financial Procedures of SoBRA.

5. Declaration

The declaration below is provided in recognition of the audited accounts for SoBRA for the year ending 30th September 2025. I confirm that the records are correct and comply with SoBRA's procedures.

Please note this audit is a 'good will' informal audit, undertaken in order to verify the approximate status of SoBRA accounts. This audit is not intended to constitute a formal accounts audit for submission in relation to tax. Any such audit should be undertaken by a specialist accountancy practitioner.

I, the undersigned, certify that the account documentation viewed for the Society of Brownfield Risk Assessment appears to be a correct record and comply with the Financial Procedures of SoBRA
